Marine Aviation Training Priorities

LtCol Todd Glenn

PMA205 Marine IPT Lead

(301) 757-6939

NATSAG XX

27 APRIL 2004

Guidance

- Marine AVPLAN
  - ATS Concept
    - Provide Warfighter Focused Tactically Relevant Training and an Improved Management Structure for Improved System Efficiency
  - ATS Current Situation
- HQMC Focused on Transformation Platforms Investment
  - MV-22B, AH-1Z/UH-1Y, KC-130J, CH-53X, JSF

Objectives

- Instructional Systems Design Process to Determine the Training Systems Requirements
  - MTL
    - Curriculum
      - Courseware
      - Training Devices
- High Fidelity Tactically Relevant Trainers to Provide Readiness in the Face of Reduced Flight Hour Budgets
  - FAA Level D Equivalent

New Devices

- Core/Common Architecture
  - Visual Database
    - Possible NASMP Convergence
  - Tactical Environment Network (HLA)
  - Maximize Hardware and Software Commonality

Legacy Device Sustainment

- Visual System Upgrades & Rehosts
- ASE Upgrades
  - TEN Integration
- Training System Life Support
  - TECRs
  - Address Obsolescence Issues
  - Spares Cannibalization
  - Relocate Devices (CH-46E and C-130)

Challenges

- Funding
- Lack Defined Network Interoperability Requirements
  - ACE
  - MAGTF
  - Naval
  - Joint
